SUMMARY

As a dedicated AI Engineering student at Chosun University, I focus on Computer Vision, Metaverse, Client Programming, and Data Analysis. I have experience analyzing real-time vision interfaces and possess practical skills in Python, C/C++, and Docker. My goal is to leverage these capabilities to grow into a proficient AI Service Developer or Game Programmer who crafts immersive digital experiences.

EXPERIENCE

Research Analysis on Real-Time Hand Gesture Recognition Interfaces in Virtual Reality Using Computer Vision

Brick Breaker Game Development Using Python

EDUCATION

Artificial Intelligence Student (2nd Year), Chosun University, Gwangju
